The Portland Hospital
for Women and Children

CONSULTANT OBSTETRICIAN DIRECTORY

Consultant led care

INTRODUCTION | *Consultant led care*

The Portland Hospital is internationally renowned for clinical excellence and the only hospital in London entirely dedicated to women and children. Mothers-to-be who choose The Portland Hospital for their maternity care can be confident that they will receive the highest quality specialist treatment for their pregnancy and birth.

Leading, international Consultant Obstetricians work together with The Portland Hospital to provide the highest standard of maternity care. This directory has been designed to enable mothers-to-be to choose the most appropriate practitioner for their individual needs. All Consultant Obstetricians listed provide general obstetric care, including normal deliveries, Caesarean sections and induction of labour. This directory also lists subspecialties within maternity care to assist patients in making an informed decision.

Many of the Consultant Obstetricians hold their antenatal consultation appointments in The Portland Hospital's Outpatients Department. Patients of Consultant Obstetricians who are based at the hospital benefit from other facilities, such as antenatal classes, ultrasound scans and fetal medicine tests, which are all available on site. A list of the Outpatient Department Clinic times for Consultant Obstetricians based at The Portland Hospital is provided within this Directory.

The Consultant Obstetrician will undertake and advise on all your antenatal care. They will also make your booking with the hospital for the delivery of your baby.

Consultant Obstetricians are independent practitioners, who undergo a rigorous process to gain admitting privileges to the hospital. This involves evaluating their background, experience and qualifications and ensuring that they maintain a high standard of practice. Prospective patients, who are not familiar with the UK system for Consultant titles, should note that those with titles Mr, Mrs and Miss are all Consultant Surgeons. Our Consultant Physicians hold the title Dr.

Consultant Obstetricians are listed in this directory in alphabetical order. The Portland Hospital is unable to recommend specific individuals.

For further information on maternity care at The Portland Hospital, please refer to our Maternity Services Guide; the Maternity pages of our website, www.theportlandhospital.com; or contact our Patient Coordinator on 020 7390 8269
